SUMMARY

Motivated Computer Science and Engineering student at AIET with a strong foundation in core software principles, database management, and system-level applications. Experienced in developing backend systems, interactive web components, and console-based management tools. Eager to contribute technical problem-solving skills to dynamic software engineering teams.

EDUCATION

Aryan Institute of Engineering and Technology (AIET) — Expected 2027
Bachelor of Technology in Computer Science and Engineering — *Odisha, India*

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, SQL, HTML, CSS, JavaScript, C
- **Core CS Concepts:** Data Structures & Algorithms, Database Management Systems (DBMS), Operating Systems, Computer Networks, Basic CyberSecurity concepts
- **Developer Tools & Practices:** GitHub (Version Control), Postman, SQLite, MySQL
- **Frameworks & Utilities:** React.js, Node.js, Express.js, FastAPI, REST APIs, TCP Sockets

PROJECTS

Neighborhood Helpboard — 2026
Python, TCP Sockets, REST APIs, Render

- Built a TCP client-server application for local neighborhood communication with modular Python codebase and LAN accessibility.
- Integrated secure onboarding workflows and deployed live instances on Render.

Flight Management System — Console-Based
Python, SQLite

- Developed console-based passenger registration, booking, search, and cancellation modules using SQLite data persistence.

Hotel Management System — Console-Based
Python, SQLite

- Implemented automated room booking, billing, and real-time availability tracking for hotel management operations.

E-Learn Platform Project — Web Application
Frontend Organization, UI/UX

- Built an E-learning platform featuring structured modules and guided explanations with a strong focus on clean front-end file organization.
- Emphasized accessibility and structured user flows for enhanced learner comprehension.

EXPERIENCE

Hackathon Team Lead & Full-Stack Contributor — Multiple Events
Team Lead, Frontend, Backend, Prompt Engineer

- Served as Team Lead, Frontend Developer (React + Vite), Backend Developer (Python + SQLite), and Prompt Engineer for AI-driven demo projects.
- Coordinated cross-functional team planning, task delegation, and rapid delivery under strict hackathon deadlines.

CERTIFICATIONS

Introduction to Web Development | *HTML, CSS, JavaScript* — 2025/2026
Getting Started with Git and GitHub | *IBM* — May 2026
Operating Systems: Overview, Administration | *Security* — 2025
Computer Networks and Network Security | *IBM* — April 2025
